

These are 5 books that will catapult your career if you read them and take their advice.

They are probably not what you would think they would be! Every single one has been recommended by guests and experts we have had on the [Happen to Your Career Podcast](#)!

The Passion Test by Chris and Janet Attwood

Tom Casano identifies this amazing find. Take the test and learn very revealing things about yourself. Then use the book to apply that information. Tom raves that this is the book that helped him start lifecoachspotter.com

48 Days to the Work You Love by Dan Miller

Dan mentions his book during his [interview](#) and Scott jumps to recommend it as he has personally used the information found here to obtain 4 job offers over 4 months. It helps you identify what you are looking for and then in the same book shows you the pathway to getting there! Pure Awesome. Scott buys multiple copies to give away to other people. It is a must read if you will be changing jobs, careers or starting something of your own in the next year!

Strengths Finder 2.0 by Tom Rath

People are successful because of the things they are great at or have potential to be great at. Everyone has different strengths. If you don't know what these are, how can you hone in on a career that fits you? You can't!

HTYC uses this book AND the free assessment that comes with it in our [coaching](#) to easily and quickly understand what our clients are GREAT at!

“The Power of Starting Something Stupid” by Richie Norton

Warning: This book will cause you to take action. Richie's stories are relevant and life changing.

This book is near and dear to our hearts since our Podcast would not exist without it. Mark read this book and decided to contact Scott. They began working on projects together and after Mark came aboard HTYC, they planned and launched a podcast to help people move closer to work they love with every listen.

“Secrets of the Millionaire Mind” by T. Harv Eker

Mike Kawula mentions this book in the very first episode and we at HTYC believe that it's a must have. Before you can achieve your full potential in your career, you must adjust the way that you view money. This is the tool to help you do it. Pick up this one to learn how millionaires think differently.
